

Designer: NODE (Bertil Stam)

MADAME & MONSIEUR dining chairs

"Making a new chair is always a process of ideas and evaluations, I thrive to bring nice details and great commerciality into all my designs, still keeping focus on the costing to make it affordable. My desire is to bring harmony and honesty between details-materials- comfort-costing, and I get the most happy, when I see my designs becomes the center of someone's home."
